

BEYOND WORDS

PUBLISHING / MULTIMEDIA 2011

Inspiration for personal and global transformation

From the Editor-in-Chief

For twenty-eight years, Beyond Words Publishing has been a leader in the Mind, Body & Spirit genre, and it has been my honor to be a steward of this burgeoning worldwide movement. With our compelling list of upcoming titles and our time-tested backlist, we continue to create a community of inspiration, empowerment, and transformation.

This community also thrives online. Through our blog, Twitter, and Facebook presence, we have engaged people in the conversation, and with our new, enhanced website, which will be launched later this year, we will be able to provide an exciting and user-friendly digital community where the conversation can expand among all our partners.

As the copublishers of the blockbuster hit *The Secret* by Rhonda Byrne, we have seen what an impact a single product can have on the social consciousness of the world. This year, we have several titles that have the potential to make the same kind of impact. *The Code* by Johanna Paungger and Thomas Poppe helps readers unlock their inner strength using only their birthdays and ancient Tyrolean wisdom. *The Laws of Prosperity* by E. Bernard Jordan gives readers twenty laws that will transform all aspects of their lives. Mike Dooley's newest title, *Leveraging the Universe*, helps readers understand that the Universe is actually conspiring to give them the best life possible. *The Connection* by Anthony Silard presents readers with a new and deeper way to connect with their passions and dreams. Mary Hayes Grieco shares her highly effective method for achieving complete forgiveness, the Eight Steps to Freedom, in *Unconditional Forgiveness*.

We are partners in transformation, and I am delighted to share with you the tools of 2011 that will help you and your customers create a future of hope and possibilities.

Why the Dalai Lama Matters offers a revealing, provocative, five-step solution to heal a world in conflict and restore human rights and basic freedoms.

Since the illegal Chinese invasion of Tibet in the 1950s, Tibetans have seen their religion, language, and culture repressed, their ecosystem compromised, and the systematic oppression and violence against anyone who professes loyalty to the Dalai Lama. Despite all of this, the Dalai Lama has been a consistent voice for peace, offering a Middle Way Approach that has garnered accolades from the Nobel Peace Prize to the US Congressional Gold Medal.

By revealing how the Dalai Lama has garnered the support of world leaders while maintaining an unwavering commitment to nonviolence, Robert Thurman suggests that power gained by force no longer succeeds. Thurman not only demonstrates the persuasive power of the Dalai Lama but also explains how each person can make a profound difference in the world.

“Dr. Thurman clearly describes how the fourteenth Dalai Lama can forge a path to a far better world in our time. This...compelling book invites us to freedom.”

—**Sharon Salzberg**, author of *Lovingkindness*

Cell-Level Healing

The Bridge from Soul to Cell

Joyce Whiteley Hawkes, PhD

After a shattering near-death experience, Joyce Whiteley Hawkes left her career as a biophysicist and embarked on a study of indigenous healing practices from around the world. Combining her scientific expertise and knowledge of cellular processes with her hands-on experience as a healer, Hawkes quickly discovered that an individual's thoughts and emotions can have a profound impact on health.

Cell-Level Healing details exactly how readers' thoughts can change the way cells function to help repair and renew their bodies. Through a series of profound yet simple exercises, Hawkes demonstrates that healing is a basic part of human nature and shows readers how to tap into these innate restorative abilities.

Filled with thought-provoking stories and photographs, free of jargon, and thoroughly grounded in Hawkes's decades of experience in laboratory science and practical, hands-on healing, *Cell-Level Healing* invites readers to explore their intrinsic powers of transformation and regeneration to attain new levels of spiritual and physical health.

"Cell-Level Healing is quite simply the whole exciting truth about how and why our consciousness is key to our physical health and well-being."

Manifesting Change

It Couldn't Be Easier

Mike Dooley

In his most powerful and comprehensive work to date, bestselling author Mike Dooley reveals the extraordinarily unique concept of the Matrix, which outlines how the flow of events, thoughts, words, and actions do, or do not, trigger changes in people's lives. In *Manifesting Change*, Dooley teaches readers how to move beyond the Law of Attraction to bring about real change in their lives.

Through the framework of the Matrix, *Manifesting Change* offers easy-to-understand exercises, stories, and analogies to help make dreams a reality. Dooley explains the actual mechanics behind every manifestation and how readers fit into the equation of reality creation. He teaches readers how to take action and get results without getting mired in details.

Manifesting Change is designed to slip past people's defenses and into their hearts, and to plant seeds that blossom into understanding, action, and life changes. It is the complete master's guide to following the heart and taking action on dreams.

Frequency

The Power of Personal Vibration

Penney Peirce

In *Frequency*, Penney Peirce, a pioneer in the field of intuition development, teaches readers how to detect and manipulate their own personal energies to transform their lives, maximize clarity, minimize struggles, and discover new abilities.

Peirce explains that each person has a personal vibration that communicates who that individual is to the world and ultimately shapes reality. Once readers learn how to detect and manipulate this personal vibration, they can begin to use it to shift their lives from the ordinary to the extraordinary. Even a slight change in frequency can transform depression into peace, fear into enthusiasm, and snagged situations into magical moments.

Weaving basic ideas from quantum physics together with proven intuition development techniques, *Frequency* teaches readers to refine the “conscious sensitivity” of their bodies. Peirce’s step-by-step guide shows people how to keep their energy levels high and productive, receive subtle information from their environment, and free themselves from negative energy.

“We are all affected by positive and negative energy whether we realize it or not. With the wisdom contained in this book, you will learn how to raise the level of your vibration—your frequency—to benefit yourself and humankind in miraculous ways.”

—Masaru Emoto, author of *The Hidden Messages in Water*

The Sacred Promise

How Science Is Discovering Spirit's Collaboration
with Us in Our Daily Lives

Gary E. Schwartz, PhD

As a professor at the University of Arizona, Gary E. Schwartz understands the persuasive power of scientific evidence, so when he began to explore another dimension of angels, ghosts, and spirits, he applied the same scientific tools he uses to study everything else in his academic life. What he found surprises even the most devout skeptics.

The Sacred Promise invites readers into Schwartz's laboratory, where he establishes the existence of another dimension, Spirit. He candidly discusses the challenges and rewards of connecting with Spirit and addresses what his discovery could mean in a larger context. For instance, what if human feelings of emptiness, loneliness, and hopelessness are actually fostered by a belief in a spiritless universe? What if angels and ghosts are all around and able to share their energy, hope, and guidance?

"Gary Schwartz applies procedures of experimentation that no honest skeptic could argue with."

—**Deepak Chopra**, author of *The Third Jesus*

Natural Abundance

Ralph Waldo Emerson's Guide to Prosperity

Edited by Ruth L. Miller

Ralph Waldo Emerson's timeless wisdom influenced Charles F. Haanel and Wallace Wattles, the inspiration for the hit book and film *The Secret*. Now, *Natural Abundance* takes readers straight to the source with easy-to-understand modern translations of Emerson's most powerful essays.

In clear, simple language, Ruth L. Miller gives readers a direct sense of what Emerson felt, saw, and struggled to share. Using common sense, a love of nature, and his own innate genius, Emerson expresses a higher truth about who humans are and what the world can offer if people only ask. Emerson's provocative essays demonstrate how the world responds to thoughts, words, and actions. By better understanding Emerson's teachings about humanity's relationship with nature and the world as a whole, readers can ensure that every aspect of life is filled with joy and prosperity.

Natural Abundance makes the hidden treasures of Emerson's wisdom accessible to a modern audience eager for a clear path to fulfillment.

"Ruth Miller powerfully illuminates the writing of a great mystic from the past, bringing Emerson's rich teachings into the language of our time."

Roll Around Heaven

An All-True Accidental Spiritual Adventure

Jessica Maxwell

Roll Around Heaven is an all-true accidental adventure that leads one woman to eat with Deepak Chopra, dance with Stephen Hawking, heal animals with Yogananda, sing Christmas carols with an enlightened rabbi, and ultimately find true love in a Presbyterian choir.

Readers follow journalist Jessica Maxwell as she travels the globe on magazine assignments that lead to the most unexpected experiences, from discussing God with Islamic women in Dubai to chasing away evil spirits in a Himalayan hotel. Maxwell learns that her earthbound goals are mere day hikes compared to her soaring ascent to heaven on earth.

Spiced with humor, rich with original insight, tart with irreverence, and sweetened with compassion for the modern pilgrim, *Roll Around Heaven* offers readers a perfect recipe for spiritual success in a seemingly chronically baffling world.

JESSICA MAXWELL is a widely published international adventure writer and photographer who has a special emphasis on food, conservation, women's journeys, and spiritual transformation.

She is the youngest writer to pen *Esquire's* travel column, and she created Audubon's *True Nature* conservation column. In addition to authoring numerous travel books on fly-fishing, golf, and women's adventure, she is a longtime contributor to *Forbes* and *More*. Maxwell resides in Salem, Oregon.

The Orb Project

Klaus Heinemann and Míceál Ledwith

Authors Klaus Heinemann, PhD, and Míceál Ledwith, PhD use decades of research and experience to conclude that these mysterious orbs are representations of a spirit realm. With full-color photographs, fascinating research findings, and tips for readers who want to photograph orbs on their own, *The Orb Project* makes the case that this physical reality is an extension of another spiritual dimension.

The Physics of Miracles

Tapping into the Field of Consciousness Potential

Richard Bartlett, DC, ND

After working with hundreds of patients, chiropractor Richard Bartlett made a powerful discovery. He found that by lightly touching his patients while also applying focused intent, he could restore their physical, mental, and spiritual balance, instantly correcting misalignments that had plagued them for years. Most astonishing of all, he was able to teach his patients how to practice this healing technique themselves. By applying forces known to modern physics, everyone can tap into past states of healthy awareness and transport those states to the present for profound results. This simple practice offers immediate results and is available to anyone with a willingness to learn.

RICHARD BARTLETT, DC, ND holds both chiropractic and naturopathy degrees from Bastyr University in Seattle. After discovering his extraordinary healing capabilities, Bartlett created workshops and seminars to teach the Matrix Energetics system, helping people access their untapped potential.

In addition to *The Physics of Miracles*, Bartlett is the author of *Matrix Energetics* and *The Matrix Energetics Experience*. Bartlett resides in Seattle, Washington.

¡Macho!

Victor Villaseñor

Esta apasionante historia resalta los conflictos entre los valores espirituales, sociales, y económicos experimentados por un joven inmigrante mexicano que se convierte en hombre en los Estados Unidos.

Roberto Garcia, un joven de diecisiete años, tiene grandes esperanzas para un futuro diferente al de sus compatriotas en las montañas de Michoacán. Inspirado por su sed de prosperidad estadounidense, García camina por un sendero peligroso que muchos inmigrantes han emprendido antes, un camino que le conduce lejos de su hogar y hacia los peligros del mundo exterior. Al cabo de tan sólo unos meses, Roberto sobrelleva más experiencias que la mayoría de las personas tiene en toda su vida.

En su libro más intenso hasta la fecha, Villaseñor captura la emoción cruda, la intensidad sin freno, y la pura voluntad para sobrevivir en medio de lo mejor y de lo peor del Oeste.

This gripping coming-of-age story brings to life the conflicting spiritual, social, and economic values experienced by a young Mexican immigrant in the United States.

Seventeen-year-old Roberto Garcia has big hopes for a future different from that of his compatriots in the highlands of Michoacán. Inspired by his thirst for American prosperity, Garcia treads down a dangerous trail many immigrants have taken before, a trail that leads away from his home and into the dangers of the world outside. In the span of only a few months, Roberto experiences more than most people do in a lifetime.

In his most powerful book yet, Villaseñor captures the raw emotion, unbridled intensity, and sheer will required to survive amid the best and the worst of the West.

Nacido en 1940 de padres inmigrantes, **VICTOR VILLASEÑOR** creció en un rancho en Oceanside, California. Tras años de luchar contra barreras lingüísticas y culturales, discriminación y dislexia sin diagnosticar, Villaseñor abandonó la escuela secundaria para regresar a sus raíces. Al trasladarse a México descubrió una gran cantidad de arte, literatura, y música que le ayudó a recuperar y comprender la dignidad y la riqueza de su patrimonio.

The Great Change

White Deer of Autumn

Illustrated by Carol Grigg

In this beautifully told Native American tale, a wise grandmother explains the circle of life and death in a way all children can understand. She retells an ancient tribal story about a caterpillar that “dies” and becomes a beautiful butterfly. She explains that there is no end in the human circle of life—there is only the Great Change. This loving approach to life and death passes on tradition, culture, and wisdom to the next generation.

GABRIEL HORN, also known by his tribal name White Deer of Autumn, helped establish the American Indian Movement Survival Schools in Minnesota, the Minneapolis American Indian Art Gallery, and the Living Traditions Museum. He is a member of the National Committee on American Indian History and an adviser to the Native American national newspaper *Indigenous Thought*. Horn resides in St. Petersburg, Florida.

CAROL GRIGG, using earthy, desert-colored pastels, attempts to capture a sense of unity with nature in her work. This internationally recognized painter is known for her trademark Native American horse and rider, which to her symbolizes the Mother Earth that we are all compelled to ride. Her style is inspired by her own Native American heritage. Her prints are sold in fine-art galleries across the United States. Grigg resides in Portland, Oregon.

Our Community Garden

Written and illustrated by Barbara Pollak

Our Community Garden describes a group of children that goes each day to an urban community garden to plant the foods the children eat at home. Tomás grows tomatillos for salsa, Cassandra grows carrots, Alison grows asparagus beans, and Audrey Aubergine, the narrator, grows eggplants.

When these lively children are not playing hide-and-seek or exploring nature, they are tending their plants. The story culminates in a harvest festival with everyone in the community bringing dishes made from vegetables grown in the community garden. *Our Community Garden* celebrates urban farming, cultural diversity, community teamwork, and a love of nature.

A Survival Guide for Landlocked Mermaids

Written and illustrated by Margot Datz

Margot Datz helps the reader discover her own inner mermaid by immersing her in the waters of modern mermaids who find themselves caught in nets of their own comical dilemmas or circling the murky depths of their hearts' fishbowls. Explore the waters of deep emotion; embody the intuitive, mischievous, and untamable spirit of all women.

Datz's inner water garden is full of suggestions on coping with crow's feet and fish tails, while offering advice from an enchanting and entertaining point of view. Writing in a playful and humorous style, Datz shares the more serious issues of courtship, self-esteem, and feminism today. Like a martini, *A Survival Guide for Landlocked Mermaids* can be sipped or gulped in one reading.

Tibetan Meditation Music

For Quiet Mind and Peaceful Heart

Nawang Khechog

Grammy®-nominated musician and Dalai Lama-trained former monk Nawang Khechog has created a soothing blend of music wholly focused on quieting the mind and opening the heart.

Khechog's unique arrangements de-emphasize rhythm while subtly accenting with flute, vocals, bells, percussion, and classical Tibetan instruments to enhance the calming and spacious sounds of spiritual chants.

His most tranquil recording to date, *Tibetan Meditation Music* evokes the feeling of sitting on a Himalayan mountain, gazing into the infinite space and having natural freedom and eternal peace. Khechog's newest offering is the perfect accompaniment for meditation, yoga, tai chi, healing practices, or pure relaxation.

NAWANG KHECHOG is a writer, teacher, refugee, freedom fighter, and Grammy®-nominated musician. He practices meditation techniques learned during his eleven years as a monk, when he was personally sponsored by His Holiness the Dalai Lama. He has inspired professors, spiritual leaders, monks, and others seeking a compassionate and quiet heart. *Tibetan Meditation Music* reached number nine on the Billboard charts. Khechog resides in Boulder, Colorado.
